

Hand-held DVR Remote control

To control one or more DVRs with the new remote control, the following are instructions to set up each individual DVR using the “DVR SEL” button on your remote.

1. Go to the Main menu on the DVR and select “System Setup”, then “RS485 Setup”, and assign the DVR a unique ID from the "RS485 Unit ID" option. The ID ranges from 224 to 239 (a total of 16 unique unit IDs).
 2. Use the following combination keys to control specific DVRs:
 - "DVR Select" key + "CH" key: Specify the target DVR. CH1 is for ID224 and CH2 is for ID225, etc.
 - "DVR Select" key + "ESC" key: Retrieve the broadcasting mode.
 - "DVR Select" key + any other keys: Cancel ID specifying.
