

BALUNL-TVI

Mini Balun with Pigtail

Description:

Our tiniest miniaturized video Balun is small enough to get into those tight, out of the way, installations. Cut costs of lengthy coax runs and upgrade installations to future IP capabilities by passively transmitting video over less expensive unshielded Twisted pair cable up to 1000 feet away, no power boost required!

Weight: 0.10 lbs

Features:

- Transmit a full motion B/W signal up to 1,312 feet (400m), and color video signal up to 984 feet (300m)
- Distance up to 3280 feet (1KM) when used with an active receiver
- Passive, no power required
- Eliminate Coax Cable
- Cable: Cat5 (24AWG)
- Dimensions: 1.85 x 0.66 x 0.55 in (47x17x14mm)
